. In November 2012, Paragon Entertainment released a game that was rebranded to X3.2: Call of Pripjat. In the game, users play as an Interpol agent called Mira that has been tasked with investigating the Chernobyl Nuclear Power Plant as it is about to blow up. The game was released on both Microsoft Windows and Mac OS X. The Windows version was developed by Flagship Studios and the Mac OS X version was developed by Infinity Ward. A version for iOS was released a few months after the Mac OS X release. The iOS version was developed by THQ, the game's publisher. Call of Pripjat received mostly negative reviews, criticizing its slow pacing and highly repetitive gameplay. IGN gave the game a 2.7/10 rating.
